From conception to completion... Lexique does it all

Founded in 1991, Lexique Signs are unique in our field. We have the capacity to do everything in-house, from survey and design, to manufacture, installation and maintenance - resulting in significant savings for you.

Surveys

Experienced consultants can undertake a comprehensive site survey, identifying your signage needs and advising on best placement for maximum effect.

Signage and DDA Audits

Existing signage is assessed for effectiveness and possible improvement. Disability Discrimination Act audits identify access and usability issues for the disabled in accordance with current legislation.

Design

Our designers make your aims reality, and computer aided design facilities offer full graphic layouts of how your signs will look.

Manufacture

Our manufacturing facilities are second to none - investment in technology, equipment and staff enable us to produce even the largest signs quickly and cost efficiently.

Installation

Our teams are experienced in all types of sign fitting, providing a safe, clean and efficient service.

We supply

Safety signs, Corporate sign systems, Internal sign systems, Fascia signs (shop/retail), Entrance signs, Fire signage, Directional signs, Environmental signs, Road signs (fixed & temporary), Banners, Flexi face systems - for extra large installations, Vinyl & built up lettering, Security signs, Car park signs & Van graphics.
